PRESS RELEASE

On June 16th, 2026, the **Health AI & CyberSec Summit** will take place at the **Copernicus Science Center in Warsaw**. For those who prefer to participate remotely, part of the event will also be available via simultaneous **Online Live Streaming**.

The event serves as a platform for **exchanging knowledge and experiences** to help European leaders, experts and specialists from the healthcare & pharma sector to tackle **cybersecurity, data protection and AI-related challenges** and prepare for the future. It is powered by two industry-leading communities: **The Hack Summit**, focused on cybersecurity, and **Data Science Summit**, covering AI and data topics.

The summit will feature **keynote speeches** and **roundtable discussions** led by industry leaders, academics, and public officials. Two independent areas, one goal: **modern and secure medicine**:

ML / AI in Healthcare & Pharma

- Medical Imaging & Computer Vision
- Predictive Health
- Generative AI & LLMs in Health
- Bio-Pharma & Omics Data
- Drug Discovery
- Explainable AI (XAI) & Ethics
- AI Act & Medical Regulations
- EHDS & Interoperability
- Clinical Data Science Ops

Cybersecurity in Healthcare & Pharma

- Governance
- Technology Risk
- Compliance
- National & EU laws
- Data protection
- Technical cybersecurity: Attack & Defense
- Supply chain risks and challenges
- AI cybersecurity

The event aims to bring together specialists, managers, executives and representatives of the public sector from across Europe. **Organized with the support of the European Commission**, the summit is recommended by the European Cybersecurity Competence Centre, the Polish Cyberspace Defense Forces, and the Ministry of Digital Affairs.

A limited pool of **free tickets is available for public sector representatives**. Interested individuals are invited to apply by registering for the Public package on the event website. **Tickets are allocated on a first-come, first-served basis.**

SOCIAL MEDIA POSTS EXAMPLES

Proposal 1
On June 16th, 2026, the Health AI & CyberSec Summit will bring together specialists, managers, executives and representatives of the public sector from across Europe for discussions, keynote speeches and networking.

The event will feature speakers from major European institutions and companies on subjects such as AI deployment in healthcare, cybersecurity and others.

Why attend?

- Facts over buzzwords: Zero "AI magic" or empty slogans. Only concrete case studies, industry standards, and technical aspects of building resilient IT infrastructure in the Pharma & Health sector.
- Networking and knowledge exchange: Meet the people who are actually implementing technology in hospitals and laboratories.
- Access to knowledge: Presentation recordings available after the conference (no need to choose between parallel sessions).
- Certification: Formal confirmation of your newly acquired competencies.

A limited pool of free tickets is available for public sector representatives. Tickets are allocated on a first-come, first-served basis.
